HEINE Charger 30

Please read and follow these instructions for use of and keep them for future reference.

Intended Use

The HEINE Charger 30 is intended only for charging the HEINE DELTA® 30 dermatoscope.
It should only be operated by qualified medical personnel within a professional health facility.

For U.S. only:
Federal law restricts this device to sale by or on the order of a Physician or Practitioner!

Warnings and Safety Information

CAUTION! This symbol indicates potential hazardous situations. Ignoring the corresponding instructions may lead to dangerous situations of mild to moderate extent. (Background color yellow; foreground color black).

NOTE! This symbol indicates valuable advice in terms of set up, operation or maintenance, as applicable. Notes are important, but not related to hazardous situations.

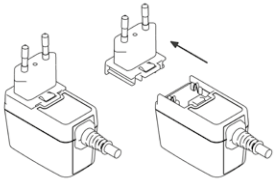

Product overview

1 Charging indicator

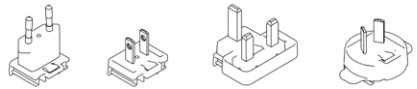

Setting up

The primary country adapter of the power supply is interchangeable, this enables worldwide operation.
The following picture describes the procedure of changing the plug.

Primary plug:

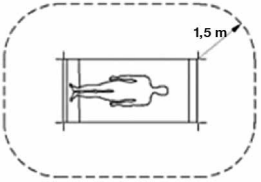

After you checked the mains voltage indicated on the nameplate of the device, connect the mains supply plug to the mains supply.

Mount the power supply in such a position where it can be easily unplugged.

To put the power supply out of operation just disconnect the power supply from the mains supply.

The charger is intended for installation in medical areas outside the patient environment (at least 1.5 meters from the patient or patient support pursuant to IEC 60601-1, see figure).

The above figure defines the patient environment (minimum radius around the patient).

Operation

For charging the DELTA 30 dermatoscope place it onto the charger as pictured in the product overview.

Make sure that there are no objects in the charging cradle.

The blue illuminated charging display on the charger indicates that the DELTA 30 is being charged. The charge level is indicated by the charging display on the DELTA 30 dermatoscope.

If the charging display on the charger or on the DELTA 30 does not light up after placing the instrument in the charger, please check whether the device is plugged into the mains and the instrument is correctly inserted into the charger. Reset the charging process by removing the instrument from the charger for a few seconds and then replacing it. If the situation persists, contact the manufacturer.

Hygienic reprocessing

The instruction is available:
- at www.heine.com
- in a paper version which you can request from the address listed

Maintenance

The device is maintenance free.

Service

The device has no components serviceable by the end-user.

General Notes

The warranty for the entire product is invalidated if non-genuine HEINE products or non-original parts are used and if repairs or modifications are made to the device by persons not authorized by HEINE. For more information, please visit www.heine.com.

The expected life cycle amounts with designated use and the observation of warning and safety information as well as the maintenance instructions up to 7 years. Beyond this period, the product may continue to be used if it is in a safe and good condition.

General Warnings

⚠ Check the correct operation of the device before use! Do not use the device if there are visible signs of damage.

Do not place metallic objects (e.g. paper clips, coins) in the charging cradle.

Do not use the device in fire or explosive risk area (e.g. oxygen saturated or anaesthetic environments).

This product is not allowed to enter or be used in areas with strong magnetic fields e.g. MRI scanners.

Do not modify the device.

Use only original HEINE parts, spare parts, accessories and power sources.

Repairs shall only be carried out by qualified persons.

Do not use the power supply outdoors.

Heating during operation is normal and harmless. Make sure that the device isn't covered during operation, that it isn't placed in close proximity to a heating and that isn't exposed to direct sunlight.

Disposal

The product must be recycled as separated electrical and electronic devices. Please observe the relevant state-specific disposal regulations.

CE	CE-Kennzeichnung kennzeichnet die Übereinstimmung mit der Europäischen Medizinprodukterichtlinie 93/42 EWG. The CE mark indicates that the product complies with the European medical device directive 93/42/EEC. Le marquage CE indique la conformité à la directive européenne 93/42/CEE relative aux dispositifs médicaux. El marcado CE indique la conformidad con la directiva europea 93/42/CEE relativa a los productos sanitarios. Il marchio CE indica la conformità con la direttiva europea sui dispositivi medici 93/42 CEE. CE-märkning markerar en överensstämmelse med det europeiska direktivet för medicinska produkter 93/42 EEG. CE-markering duidt de overeenstemming aan met de Europese Richtlijn betreffende medische hulpmiddelen 93/42 EEG. CE-mærkningen angiver overensstemmelse med det europæiske direktiv 93/42/EØF om medicinsk udstyr. CE-merket angir at produktet er i samsvar med rådsdirektiv 93/42/EØF om medisinsk utstyr. CE-merkintä tarkoittaa, että laite vastaa eurooppalaisen lääkinnällisiä laitteita koskevan standardin 93/42 ETY vaatimuksia. O símbolo CE identifica a concordância com a Diretriz Européia para Dispositivos Médicos 93/42/CEE.
